

Objectives for 2025

Following the analysis of the context (internal, external and environmental conditions) affecting SOME S.A.U's activity, the risk assessment, identification and evaluation of significant and indirect environmental aspects, as well as the analysis of various improvement opportunities, the following environmental objectives have been set for 2025.

OBJECTIVE	OBJECTIVE DEFINITION	RESPONSIBLE PARTY
FIRST	Reduce CO ₂ emissions (Scope 1 and 2) by 10%	Production, Quality & MA
SECOND	Obtain CO ₂ data from suppliers representing 75% of turnover	Production, Quality & MA
THIRD	CO ₂ breakdown by product family	Production, Quality & MA

The progress of these objectives will be monitored periodically, as established by the relevant procedure, using the designated indicators.
